Subject: [Letter subject / project topic]

Dear [Recipient name],

This file is the branded OG letterhead template. Replace the placeholders, keep the subject line tight, and type directly over the sample copy with the actual letter content.

Use the body for proposals, client updates, approvals, project handover notes, or any formal communication that needs to look cleaner than a plain Word page.

If you need a second page, keep writing - the header and footer stay in place so the branding carries through automatically.

Kind regards,

[Your name]
